Extended Synopsis

What would the Second Coming of Jesus look like in the age of social media?

In a world dominated by digital gurus, influencers, and an endless pursuit of likes, this mockumentary follows the misadventures of Jesus and his brother Simon as they attempt to fulfill a divine mission in a reality they barely understand.

Placed under the management of a talent agency more interested in monetization than spirituality, the two brothers are drawn into the world of viral content and instant attention.

Amid marketing campaigns and the relentless demands of the digital landscape, Jesus is faced with a question: how can he spread his message in a world where everyone is talking, but no one is listening?
